

Though a K-LOVE is not a local radio station, it reaches out to people in all of its listening areas. It has toll free telephone numbers for listeners to call for prayer and just so you can talk to someone if your needing to. There are no other stations that fit the area or nation that are quite like it. It is a listener funded station and would be a shame if its not continued. They provide a great relief even for many of our troops abroad via the ability to listen on the internet. Our nations morals are on a downward spiral.
